Submitted with ref. to this Deptt. U.O.R. dated the 23-2-50.

2. The F.D. advises that the question of allowing Shri Daflapurkar the services rendered by him under the Sholapur Muncy. and the Backward class Deptt. which has been already negatived should not be pursued further. That Deptt. however proposes to fix Mr.Daflapurkar's pay in such a way that he should get at least the pay equal to his next junior on the analogy of the orders issued in G.R., F.D.No.6567/33, dated the 13-10-48.

3. The proposal made by the F.D.does not give full justice to Mr. Daflapurkar. There seems no reason to advance his dat of increment so as to coincide with that of his junior. It appears that the date of increment should remain unchanged.

4. As regards the concluding portion of the F.D's note, dated the 16-3-50, as far as is known at present there have not been any cases of Mr. Daflapurkar's type.

It seems very unlikely that there will be any repercussions if Mr. Daflapurkar's pay is refixed as advised by the F.D. subject to the modifications proposed in para. 3 above.

5. It is for consideration whether the F.D's view may be accepted subject to the above remarks. If so, the draft put up may shown u.o.to the F.D.before issue.

Submitted with reference to this Deptt. note dated 16-3-1950.

2. The P.W.D. is agreeable to the suggestion of this Deptt with some modification. It is also stated that the decision

n Shri Daflapurkar's case on the lines proposed is not xxx likely to create any repercussions in the P.W.D.

5. The contention of the P.W.D. that the proposal of this Deptt. does not give full justice to Shri D.is not correct. As stated in the o.n.referred to above, the question is/ mainly one of resolving an anomaly which has arisen in the course of fixation of pay under the B.C.S.(Revision of pay) Rules 1948 and there is no reason to go beyond what is required to set the matter right. The suggestion made by this Deptt. is based on the orders issued in G.R.F.D. No. 6567/33 dated 13-10-1948 and since the proposed remedy is calculated to resolve the anomaly in question, F.D. may adhere to the view that it would suffice if Shri D is given the pay equal to that of his immediate junior by advancing his date of increment so as to coincide with that of the jr junior.

E.B.(I).

Submitted with reference to the Govt. omit. No. 6717/36 (I)-E(I), dated the 17.11.48 and the O.N. underlying it

2 For the reasons stated by the Ex. Engr., Irrn. Project Dn.(North) in his letter within the late S.E., NcC. had made the following proposals:-

(a) Creation of two new Sub-Dns. to be called—

(i) Gujarat Irrn. Development Sub Dn. and

(ii) Gujarat Irriculture and Soil Research Sub Dn. in the Irrn. Projects Dn.
(North)

(b) Transferring the River Gauging Sub Dn. at Ahmedabad from the Water Resources and Investigation Dn. to the Irrn. Projects Dn. (North

The S.E., S.G.C. to whom the proposals were refd. for remarks says that the stage of investigation of the seven irrns. projects mentioned in the letter of the Ex.Engr. Irrn. Projects Dn. (North), has already passed and they are ripe or nearly ripe for execution and in fact the execution of one of them viz the Meshwa Canal Project is already started. He is, therefore, of the opinion that unless it is proposed to hold up these projects till the proposed investigations are made and information collected to make them complete in all respects, there is no urgency of the creation of the proposed two new Sub-Dns. ~~He has no objection to the creation of the proposed two new Sub-Dns.~~ He has no objection to the creation of the proposed Sub-Dns., if they are intended to collect the information side by side with the execution of the projects for completing the records or with a view to making suitable changes found necy. as a result of investigations and if feasible at the then stage of construction of the projects or if the infn. is to be collected for future projects. He, however, points out the difficulty of obtaining the necy. technical personnel required for the Sub Dns. and suggests that as a long range measure, the Sub Dns. may be sanctioned now but may be opened when the requisite qualified technical staff becomes available. It is for consideration whether the suggestion may be accepted and the Sub Dns. may be sanctioned now with estabt. proposed by the Ex. Engr. on page ante in u.o. consultation with the F.D.

As regards the proposal at (b) above it may be stated that the similar proposal made by the S.E., K.I.C. for transferring the River Ganging Sub-Dn., Belgaum, for

transferring the River Ganging Sub Dn., from the Water Resources Investigation Dn. to his circle was not accepted as it is considered desirable that the Water Resources Investigation Dn. should compile all records reg. investigation of underground and surface supplies of water-vide the S.E. S.I.C's (Now S.E., K.I.C's) letter No.G-108/762, dated the 31-3-48 and para 1 of the late Dy. Secy's (R.B.Gadkari's) note dated the 1-5-48, thereon concurred in by both the Secys. It is, therefore, for consideration whether the S.E., S.G.C.'s proposal to transfer the River Ganging Sub Dns., Ahmedabad, from the Water R.I.Dn. to the Irrn. Projects Dn. (North)may be negatived.

4. In para. 5 of his letter the Ex. Engr., Irrn. Projects Dn. (North), has proposed to open a new Machinary Sub Dn. in his Dn, for selecting the best type of machinary for major irrn. projects in his Dn. and for working and maintaining the same in good condition. The late S.E., N.C., did not favour this proposal but suggested to open such an Sub Dn. in due course under the Mahi Construction Dn. and that it should look after the machinary in the Irrn. Projects Dn. (N) as and when necy., i.e. his idea was to have one common Machinary Sub Dn. for two Dns. The S.E., S.G. however, considers that an independent Machinary Sub Dn. is necy for the Irrn. Projects Dn.(N). It is for consideration whether such a Sub Dn. may be sanctioned for the Irrn. Projects Dn. (N). If so, the S.E., will be asked to submit the details of the estabt., etc, required for the Sub Dn.

5. Estbt. for a Sub. Divl office.

The Estbt proposed by the S.E.N-G.C. is detailed at p.5 ante. The normal estbt sanctioned for a Sub Dn consists of:-

1 Dy.Engr.
3 Overseers.
1 Tracer
1 Computor
3 Clerks
5 Peons.

The following items proposed by the S.E. are in excess of the normal requirements in each Sub Dn.

1 Supervisor B.E.

6 (Sub Overseers
(Surveyors

3 Tracers

3 Computors

2 Well Observation Karkuns.

2 Classifiers

Perhaps 3 surveyors, 3 Sub-Oveeseers may be allowed in addl: to the normal strength the S.E. may be advised to employ Karkuns as Work-charged estbt.

As regards the remaining addl. posts in each Sub. 2 the S.E. may, if appd. be requested to justify in great details their necessity.

6. The scalesproposed for the several posts are sanctione scales & may be approved.

6. The cost of the proposed estabt. is debitable to the head "50-C.W. Crdy." The annual average cost of the estabt. will be more than Rs. 5,000(recurring) . If therefore the estant. is required during the current year the L.A. sanction will have to be anticipated . If can be obtained by means of a supply demands. The F.D. may advise on the point.

R.W.C.

I have little to add to what has been noted upon already by Khan Saheb Bulsara and Mr. Akerkar. The need for two Sub-Divisions is beyond doubt a genuine one. But so long as the existing Sub-Divisions have not been able to make up the ~~serious~~ serious shortage in overseers and trained clerical staff, I see no wisdom in opening new Sub-Divisions unless it is accepted that the deficit in overseers may be allowed to be further accentuated by the opening of new Sub-Divisions and a diversion of some necleus staff from existing Sub-Divisions to the new ones. The result will be lack of concentration on the projects on hand.

I understand from Rao Bahadur Parekh that Dr. Talati of Irrigation Research Division, is the officer in view for the Irriculture Sub-Division and if that Sub-Division can carry on its work with B.Ags. and B.Scs.(Chemistry), there is some point in opening that Sub-Division.

U.O.R. to the F.D. dated the 19-2-49

Finance Deptt- B.

From the concluding portion of the P.W.D. note dated 11.2.1949 it appears that these papers have been referred to this deptt in connection with the following proposals supported by that deptt.

i) To open a new soil research Sub-division similar to one opened in I & I.W. for similar work and

ii) to open a Mechanical Sub division and to attach it to the Mahi Construction Division as soon as the project is administratively approved.

2. As regards (i) it appears that the opening of the new Soil Research Sub-division is nesessary to make the several investigations referred to in para 2 B of Ex. Engr letter on page 1-3 ante to enable him to prepare a Major Irrigation

Project in a complete state. The staff proposed for this Sub-division by the Ex.Eng. is as indicated at B on page 5 ante. The P.W.D. has suggested that the staff may be on the lines already sanctioned for a similar sub-division in K.I.C That deptt has however not given the details of the staff sanctioned for said division. As these details are necy for scruiting of this deptt. P.W.D.may be requested to furnish the same together with the cost involved.

3. As regards (ii) above attention is requested to para 5 of E.E:s letter on page 3 ant,,S.F. N.C's letter (para 4) dated 22nd Oct. 1948 and para 6 of S.F.S.G.C's letter on pag 16. It is stated that such a sub-division is necy. for the construction of the Major Irrigation Project to select the best and suitable type of plant and machinery and to work an maintain them. In this case too P.W.D. has not given financial implications of sub.division which is to be opened after project is administratively approved. That deptt. may therefore be requested to furnish in the final in obtaining details of staff etc for the scruiting of the deptt.

P.W.D.

Submitted with reference to this Deptt. u.o.r. dated the 19-2-49.

2. This Deptt. has proposed to sanction the following two new Sub-Dns. for the S.G.C. -

(i) Machinery Sub-Dn. in the Mahi Constmuction Division.

(ii) Gujarat Irrigalture and Soil Research Sub-Dn. with Dr.R.P.Talati, Soil Physicist, as S.D.O. and with subordinate estabt. on the lines as sanctioned for the Soil Research Sub.Dn. in the K.I.C.

The F.D. wants the details of the estabt. and the cost involved in the proposals.

3. Proposals (i) above :- The Machinery Sub-Dn. is to be sanctioned after the Mahi Canal Project is administratively approved. The Project has not yet been administratively approved. The question of sanctioning this Sub-Dn. may therefore, if approved, be deferred for the present and the S.E. may be asked to resubmit the proposal, together with the details reg. estabt. etc. required for the Sub-Dn., after the Mahi Canal Project is administratively approved.

4. Proposal (ii) above :- This Sub-Dn. is to be in charge of Dr. R.P.Talati, Soil Physicist. Dr. Talati has since been transferred from the D.E.C, to the S.G.C. along with the pt. post held by him vide G,R.No. 9894/36, dated the 28-1-49. It is not therefore necy. to sanction a new post of S.D.O. for th Sub-Dn. The subordinate estabt. required for the Sub-Dn. is dealt with in the following paras.

On reconsideration of the case and as a result of my personal discussion with Mr.A.C. Maydeo Ex.Engr. Mahi Constr. Dn. There appears to be a necessity of opening of the Machinary Sub-Dn. in his Dn. very easily. Machinary work above Rs.8 lakhs has been already ordered out and is expected to be received shortly. The Machinary Sub.Dn. will therefore have to be opened for taking case of the machinery. The question of opening this Sub-Dnl. should therefore be taken up at once. Details of the staff already sanctioned for the Machinary Sub. Dn. & Gangapur and that proposed for the Machinary Sub.Dn. for Ghatprabha should be put up.

2. The proposal relates to the staff for the Machinery Sub. Div. in the Mahi Construction Divn. as detailed in col. 5 of the statement at p.31 ante. The staff is proposed on the lines of those sanctioned for the Gangapur Storage Divn. and the Ghatprabha Left Bank Canal Division.

It will be seen that the proposed Division has been strongly recommended by all officers particularly in view of heavy and costly machinery that has been ordered for the project in view The staff will be required after the project is administrativel approved and therefore it appears can be put up as a new item for the year 1950-51. If, however, P.W.D, thinks the proposals as urgent, the sanction of L.A. may be anticipated. In that case the papers will have to be put up to the E.P.C. for scrutiny of the expenditure. 1 Tapali.	Rs.30-1/2-35.

The above staff is stated to be on the analogy of the staff sanctioned for the Soil Research Sub-division in the

The necessity to open the sub division has been explained at length in the Ex.Engr's letter dated 19th October 1948. It is stated that for the proper completion of the projects which are at present dealt with in the Irrigation Projects Division, the various investigations referred to in para 2 of his letter have to be conducted and hence the necessity to sanction the proposed sub-division to which F.D. may agree.

3. The staff as shown above may be sanctioned for a period of one year in the first instance. The annual average cost involved in the proposal is stated to be Rs.36,100/- (vide para 6 of the P.W.D. note on p. 26-27) and as such the P.W.D. may be advised t/o put up the proposal as a new item of expenditure for 1950-51budget
